- De curtición vegetal, nos dibuja un acabado retro y tacto aterciopelado. Plena flor.
- *Son tannage végétal lui donne un look rétro et un toucher velours. Pleine fleur.*
- Vegetable tanned full grain leather with retro finish and velvety touch.

## Limpieza y mantenimiento

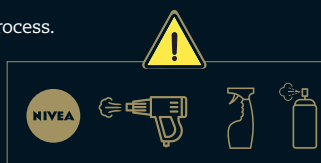

La piel tiene un mantenimiento mínimo y solo hace falta pasar un trapo húmedo con agua de vez en cuando. A diferencia del textil, no absorbe polvo.  
Le cuir requiert peu d'entretien, il suffit de passer un chiffon humide à l'eau de temps à autres. A la différence du tissu, il n'absorbe pas de poussière.  
Leather only needs very little care. It is easily cleanable with lukewarm water and a cloth. Unlike fabric, it does not absorb dust.

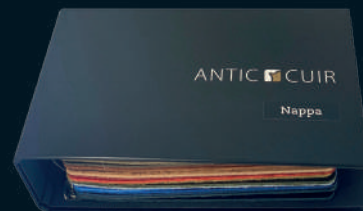

Todas las pieles Antic-Cuir® incluyen un acabado anti-manchas en su proceso de fabricación.  
Tous les cuirs Antic-Cuir® ont une finition anti-tache appliquée lors du tannage.  
All the Antic-Cuir® leather hides get an anti-stain finish applied during the tanning process.

La piel es un producto natural que puede sufrir deterioros por su propio uso.  
Le cuir est un produit naturel qui peut s'abîmer à l'usage.  
Leather is a natural product that can get damaged by its own use.
